Mohammed Elgohary *Senior Front-End Developer*

MohammedSamaraa2001@gmail.com +201030085710 Cairo, Egypt GitHub LinkedIn

Senior Front-End Developer with **4+ years** of experience architecting and building scalable **SaaS** platforms, **ERP** systems, and **AI-powered** applications. Proven track record of leading UI performance improvements (up to 60%), migrating design systems, and driving adoption of modern state management (Zustand). Skilled in TypeScript, React, Next.js, and cross-functional collaboration. Passionate about creating intuitive user experiences and reducing technical debt through clean code and thoughtful architecture.

Work Experience

2023 Jul – Present
Bahrain

Senior Front-End Developer
Lumofy

- Boosted UI performance of the Learning Experience Platform (LXP) by **60%** through rendering optimization, state management refactoring, and component redesign.
- Architected and maintained critical SaaS modules: Learning Pathways, Content Items, Appraisals, Competencies, 360 Reviews, Performance Cycles, Assessments, Quizzes, and Sessions.
- Designed and iterated on drag-and-drop **Course Builder**, **Content Builder**, and **Certificate Template Builder**, empowering administrators and instructors to create content intuitively.
- Led two major front-end architecture redesigns, enhancing scalability, maintainability, and long-term performance.
- Spearheaded the migration from Material-UI (MUI) to **Ant Design**, unifying the component library and improving cross-team consistency.
- Implemented **Zustand** for efficient global state management across complex modules, simplifying logic and boosting performance.
- Developed **Two-Factor Authentication (2FA)** on the front end, strengthening platform security and compliance.
- Established front-end coding standards, particularly in styling architecture, and enforced them through rigorous code reviews.
- Drove development of AI-powered features: AI content recommendations, AI-generated learning content, and AI-driven competency analysis.
- Collaborated with product and Back-End teams (Django) to analyze requirements and propose scalable technical solutions.

2023 Mar – 2023 Jul
Cairo, Maadi

Senior Front-End Developer
Dexef

- Delivered ERP applications with comprehensive financial modules, using **React**, **TypeScript**, **React Query**, and **DevExtreme**, applying functional programming principles to ensure high performance with large datasets.
- Resolved a critical **3-month-old technical blocker in 4 hours** by implementing JavaScript actions on widgets within a drag-and-drop page builder, unlocking dynamic functionality.
- Utilized **Azure DevOps** for agile planning and collaboration, accelerating delivery cycles.

2022 Aug – 2023 Feb
Cairo, Nasr City

Mid Front-End Developer
Rowaad

Contributed to multiple web platforms, including:

- **All Size** – E-commerce store (Saudi Arabia)
- **Khedma** – Online freelancers marketplace
- **Mezan** – Online legal consultation platform
- **Oshna** – Real estate website (Saudi Arabia)
- **New Vision Center** – Health training and educational platform

2022 Mar – 2022 Aug

Back-End Developer
قُمرة - Qumra
Engineered full-stack solutions using Remix Run, delivering backend systems and administrative dashboards for **4 client projects** – Adum Car, Sunivaeg, Pyramids, and Best Cleaner – while reducing API response times by **25%** through optimized data fetching.

2022 Feb – 2022 Jun

Full-Stack Developer / Front-End Developer
New Concept
- Enhanced company website design and functionality, boosting user engagement.
- Created custom **React hooks** that accelerated development by **75%** compared to standard workflows.
- Built full-stack features using **React**, **Next.js**, **Node.js**, **Express**, **MongoDB**, and **Ant Design**.

Projects

Task Manager Application
- Kanban tasks management
- Multi-language, Dark theme support, Drag & Drop, Import & Export, Modern Dashboard

Starbucks Landing clone
- Responsive design compatible with all devices
- Awesome animations and theming

Coming Soon Landing
- Responsive design compatible with all devices
- Sound and background effects

Typescript Quiz App
- Quiz App With Typescript

Mezan
- Saudi legal consultation platform with an admin dashboard

Skills

- Agile / Scrum
- Ant Design
- TanStack React Query
- Node.js / Express
- Jira
- React / Next
- Material UI
- React Hook Form & Zod
- SEO
- Zustand
- TypeScript
- Responsive design
- HTML5, CSS3
- Firebase
- RESTful APIs integration
- JavaScript
- Tailwind CSS
- Version Control (GIT)
- Figma

Education

2021 Jul – 2024 May
Cairo

Electronics Engineering (Incomplete) Faculty of Technology and Education – Helwan University

2018 Jul – 2021 May
Alexandria

Diploma in Computer Systems
Higher Institute of Industrial Technology – Alexandria

Languages

Arabic | English | French
